Maxxon® Commercial MVP One Moisture Vapor Barrier is a ready-to-use, water-based, zero-VOC formula that mitigates moisture-related issues when applied to concrete substrates.

- Use over concrete slabs up to 100% RH and a pH of 14
- Concrete profiling not required
- Ready-to-use; apply with roller
- Zero VOCs, water-based and non-toxic
- Less than 0.10 perm rating matching requirements of ASTM F3010 and ASTM E96
- Cost effective compared to traditional two-part epoxy systems

WHERE TO USE

Application
Residential and commercial construction.

Subfloor
Interior concrete subfloors below, on or above grade.

DRIY TIME PER COAT:
30-60 MINUTES
READY-TO-USE. FAST DRYING.

Maxxon Commercial MVP One Moisture Vapor Barrier is a single-component moisture barrier and primer that’s more efficient and cost-effective than traditional two-part epoxy systems. It’s ready to apply with a roller—no profiling required.

The unique formulation penetrates clean, porous concrete to provide a moisture barrier over concrete slabs with up to 100% RH, 25 pounds MVER and a pH of 14. The fast-drying primer protects schedules, too, reducing downtime prior to flooring installation and supporting rapid turnarounds on every project.

INSTALLATION & LIMITATIONS

See technical data sheet available at Maxxon.com for limitations and complete installation instructions.

PACKAGING

5 gal (19 L) pail

PRO TIP

Ensure concrete slab is open with a water droplet test.

When applying Maxxon Commercial MVP One, roll each coat on the subfloor, do not let it puddle.
