1. PRODUCT AND COMPANY IDENTIFICATION

Product Identifier: Maxxon® Commercial Unglued
Trade Name: Unglued Glue Remover
Product Form: Mixture
Recommended uses: Pressure Sensitive Adhesive (PSA) & Flooring Glue and Matic Remover
Restrictions on uses: None identified
Supplier: Maxxon Corporation, 920 Hamel Road • PO Box 253 • Hamel, MN 55340
Company Telephone/Fax: (763) 478-9600 / (763) 478-2431
Emergency Telephone Number: (613) 996-6666 (CANUTEC)

2. HAZARDS IDENTIFICATION

GHS classification
Eye Irritation 2A

Hazard pictograms (GHS-US)

Signal word (GHS-US) Warning

Hazard statements (GHS-US) Wash hands, forearms and face thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF EYE IRRITATION PERSISTS: Get medical advice/attention.

Other hazards: No additional information available
Unknown acute toxicity: Not applicable
3. COMPOSITION/INFORMATION ON INGREDIENTS

Substances: Not Applicable

4. FIRST AID MEASURES

Description of first aid measures

First-aid measures after inhalation: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical attention if you feel unwell.

First-aid measures after skin contact: If skin irritation occurs: Wash skin with plenty of water. Obtain medical attention if irritation persists.

First-aid measures after eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion: IF SWALLOWED: Do NOT induce vomiting without medical advice. Get medical advice if you feel unwell. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation: May cause irritation to the respiratory tract.

Symptoms/effects after skin contact: May cause skin irritation. Repeated exposure may cause skin dryness or cracking.

Symptoms/effects after eye contact: Causes serious eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.

Symptoms/effects after ingestion: Harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.
4. FIRST AID MEASURES  Continued

Indication of any immediate medical attention and special treatment needed

Symptoms may be delayed: In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

5. FIRE FIGHTING MEASURES

Extinguishing media

Unsuitable extinguishing media: Do not use water jet.

Special hazards arising from the substance or mixture

Fire hazard: Products of combustion may include, and are not limited to: oxides of carbon. Magnesium oxide. Silicon dioxide.

Advice for firefighters

Firefighting instructions: Exercise caution when fighting any chemical fire.

Protection during firefighting: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

General measures: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

For non-emergency personnel: No additional information available

For emergency responders: No additional information available

Environmental precautions: Prevent entry to sewers and public waters.

Methods and material for containment and cleaning up

For containment: Absorb and/or contain spill with inert material (sand, vermiculite or other appropriate material), then place in suitable container. Do not flush into surface water or sewer system. Wear recommended personal protective equipment.

Methods for cleaning up: Sweep or shovel spills into appropriate container for disposal. Provide ventilation.

Reference to other sections: For further information refer to section 8: “Exposure controls/personal protection”
7. HANDLING AND STORAGE

Precautions for safe handling: Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not swallow. Handle and open container with care. When using do not eat, drink or smoke.

Hygiene measures: Wash contaminated clothing before reuse. Wash hands, forearms and face thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Storage area: Keep out of the reach of children. Keep container tightly closed. Store in a dry, cool and well-ventilated place.

Incompatible materials: Refer to section 10 on incompatible materials.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

Glue Remover: No additional information available

ACGIH TWA (mg/m³): 10 mg/m³ (inhalable particulate matter)

ACGIH chemical category: Not Classifiable as a Human Carcinogen

Benzyl alcohol (100-51-6): No additional information available

Individual protection measures/
Personal protective equipment

Appropriate engineering controls: Ensure good ventilation of the work station. Provide readily accessible eye wash stations.

Hand protection: Nitrile (chemical resistant) gloves are recommended and should be used at all times when using this product.

Eye protection: Properly fitted safety glasses or splash goggles are recommended and should be used when using this product. A face shield can also be used.

Skin and body protection: Wear suitable protective clothing. Such as coveralls or long sleeves.

Respiratory protection: In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. SDSs cannot provide detailed and complete respiratory protection guidelines. Selection of respiratory protection must be done by a qualified person who has assessed the work environments.

Environmental exposure controls: Avoid release to the environment.

Other information: Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.

10. STABILITY AND REACTIVITY

Reactivity: No dangerous reactions known under normal conditions of use.
Chemical stability: Stable under normal conditions.
Possibility of hazardous reactions: No dangerous reactions known under normal conditions of use.
Conditions to avoid: Heat. Incompatible materials.
Incompatible materials: Strong oxidizers, strong acids, strong bases.
Hazardous decomposition products: May include, and are not limited to: oxides of carbon. Magnesium oxide. Silicon dioxide

11. TOXICOLOGICAL INFORMATION

Acute toxicity
Oral: Not classified
Dermal: Not classified
Inhalation: Not classified
ATE CA (oral): 1230 mg/kg bodyweight
ATE CA (vapours): 11 mg/4h

Skin corrosion/irritation: Not classified; pH: 4–5
Serious eye damage/irritation: Causes serious eye irritation; pH: 4–5
Respiratory or skin sensitisation: Not classified
Germ cell mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
STOT-single exposure: Not classified
STOT-repeated exposure: Not classified
Aspiration hazard: Not classified
Symptoms/effects after inhalation: May cause irritation to the respiratory tract.
Symptoms/effects after skin contact: May cause skin irritation. Repeated exposure may cause skin dryness or cracking.
11. TOXICOLOGICAL INFORMATION

Continued

Symptoms/effects after eye contact: Causes serious eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.

Symptoms/effects after ingestion: May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Other information: Likely routes of exposure: ingestion, inhalation, skin and eye.

12. ECOLOGICAL INFORMATION

Ecology: May cause long-term adverse effects in the aquatic environment.

| Partition coefficient n-octanol/water | 1.1 |

BENZENESULFONIC ACID, C10-16-ALKYL DERIVATIVES (68584-22-5)

| Partition coefficient n-octanol/water | 2 (at 23 °C) |

Mobility in soil: No additional information available

Other adverse effects: No other effects known.
13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Product/Packaging disposal recommendations

The generation of waste should be avoided or minimized whenever possible. Dispose of product in accordance with all local, regional, national and/or international regulations. Empty containers or liners may retain some product residue. Recycle empty containers where permitted.

14. TRANSPORTATION INFORMATION

Department of Transportation (DOT) and Transportation of Dangerous Goods (TDG)

In accordance with DOT/TDG / IMDG/IATA: Not regulated

15. REGULATORY INFORMATION

Federal regulations:

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

All components of this product are listed, or excluded from listing, on the Canadian DSL (Domestic Substances List) and NDSL (Non-Domestic Substances List) inventories.

International regulations:

No additional information available
